

MIREIA CRISTINA GARCÍA ECHEVERRI

LINUX SYSTEMS ENGINEER | AWS CERTIFIED | AUTOMATION,
MONITORING & SPLUNK

+34 684320731 | MIREIAKRISTINAGARECHE@GMAIL.COM | [LINKEDIN](#)

PROFESSIONAL SUMMARY TECHNICAL SKILLS

Systems technician with experience in enterprise banking environments, specialized in monitoring, automation and systems operations. Experienced in dashboard design, alert creation and KPI tracking with Splunk, as well as incident management and production systems support. Solid foundation in Linux, Bash scripting and systems administration, with knowledge of AWS, Docker and DevOps tools. Focused on growing professionally towards Cloud, DevOps or Linux Systems Engineer roles.

- Linux (users, permissions, services, logs).
- Linux Server and Windows Server.
- Bash/Shell scripting.
- Active Directory.
- Service management and scheduled tasks (cron).
- PowerShell.
- Networking (subnetting, VLANs, routing).
- Splunk (dashboards, alerts, KPIs, monitoring).
- Docker.
- Kubernetes.
- Terraform.
- AWS.
- Git/GitHub.

PROFESSIONAL EXPERIENCE

INFRA TRANSFORMATION ASSOCIATE (ACCENTURE - BBVA) JULY 2024 - PRESENT

Designed and implemented Splunk alerts for functional monitoring in a banking environment, including notification automation and incident creation in Helix.
Developed Splunk dashboards to visualize KPIs and performance of servers and critical processes.
Monitored systems and services in production environments.
Interacted with AWS environments for monitoring and systems operations tasks.

SERVICE DESK INTERNSHIP (ACCENTURE - BBVA) MARCH 2024 - JUNE 2024

Managed incidents using Jira and Helix.
Supported database-related tasks (PL/SQL).
Automated reports using Google Apps Script.

IT SUPPORT INTERNSHIP (MEDIAMARKT) SEPTEMBER 2021 - MAY 2022

Provided technical support and incident resolution.
Repaired equipment in HP official technical service.
Used Apple GSX.
Handled logistics and device reconditioning.

PERSONAL PROJECTS

AWS LINUX MONITORING & AUTO-RECOVERY SYSTEM | [GITHUB LINK](#)

Deployment of an Ubuntu instance on AWS EC2 with Nginx, monitoring through Bash, log generation, automatic recovery with systemd and automation using cron.
Basic CloudWatch integration for metrics and logs monitoring.

Technologies used: AWS EC2, Linux, Bash, Nginx, CloudWatch, cron.

EDUCATION

SPECIALIZATION COURSE IN CYBERSECURITY IN IT ENVIRONMENTS SEPTEMBER 2024 - JUNE 2025 (IES EL CAÑAVERAL)

Ethical hacking, digital forensics and system hardening.
Design of security plans and secure production deployment.

HIGHER VOCATIONAL TRAINING IN NETWORK SYSTEMS ADMINISTRATION (ASIR) SEPTEMBER 2022 - MAY 2024 (IES EL CAÑAVERAL)

Linux Server and Windows Server administration.
Networking, virtualization and security.
Scripting and automation in Bash and PowerShell.
Database administration.

VOCATIONAL TRAINING IN MICROCOMPUTER SYSTEMS AND NETWORKS (SMR) SEPTEMBER 2020 - MAY 2022 (IES EL CAÑAVERAL)

Installation and maintenance of IT systems.
Technical support and basic networking.

CERTIFICATIONS AND COURSES

- AWS Certified Cloud Practitioner
- English C1 certificate - EOI
- Web Page Creation and Publishing
- Driving license type B
- Typing certificate - 409 ppm
- Iptables course

SOFT SKILLS

- Problem-solving
- Teamwork
- Adaptability
- Analytical thinking
- Continuous learning
- Attention to detail
